EDUCATION

Stanford University

Bachelor of Arts

Majors: Economics, Classics

GPA: 3.96

Relevant Coursework: Applied Econometrics, Market Design, International Trade, Microeconomics, Macroeconomics, Linear Algebra, Statistics

Stanford, CA

Expected Jun 2028

WORK & RESEARCH EXPERIENCE

World Bank

Research Intern

Washington, DC

Incoming (Summer 2026)

- Will analyze data for country profiles on AI use by public servants as part of the Bureaucracy Lab's AI and Data for Better Governance initiative

Hoover Institution

Research Assistant to Prof. Hartney

Stanford, CA

Nov 2025 – Present

- Estimating state- and district-level public trust across 8 institutions using MRP on 101k+ survey responses, finding school trust is individually partisan but geographically less polarized than university trust, with significant unexplained state-level variation
- Constructing district-level trust estimates for 13,000+ school districts using ACS microdata and a two-stage estimation approach, enabling sub-state mapping of institutional trust to local policy environments

Emerging Markets Working Group Analyst

Jan 2026 – Present

- Building fiscal profile of Ghana using World Bank, IMF Article IV, and OECD ODA data, assessing revenue structures, expenditure composition, and constraints on domestic resource mobilization
- Constructing institutional scoring framework for infrastructure investment readiness in Sub-Saharan Africa, designed to inform capital allocation decisions by institutional investors

Cardinal Policy Group

Economic Policy Analyst

Stanford, CA

Oct 2025 – Present

- Analyzing HMDA mortgage microdata (2020-2023) to estimate per-loan costs of credit report errors in California's automated underwriting pipeline, assessing borrower harm across income and demographic segments for the Center for AI and Digital Policy
- Constructing cost-benefit framework comparing borrower mispricing costs against lender compliance costs for automated decision-making contestability requirements, informing state-level rulemaking on algorithmic lending oversight

Stanford Political Science

Research Assistant to Prof. Rivers

Stanford, CA

Jun 2025 – Sep 2025

- Analyzed 3M survey responses to identify demographic and attitudinal predictors of voter behavior in the 2024 U.S. election, focusing on swing state dynamics and partisan realignment
- Found that partisans re-sorted their evaluations of Supreme Court decisions along party lines when informed of case outcomes, suggesting institutional approval is downstream of partisan identity; presented findings to department seminar

Gordon Rees Scully Mansukhani

Employment Law Case Assistant

San Francisco, CA

Jun 2024 – Oct 2025

- Researched case law and drafted strategy memoranda under tight deadlines for team of 5 attorneys across 13 employment discrimination matters involving claims of wrongful termination, harassment, and wage disputes

LEADERSHIP & ACTIVITIES

Stanford in Government, *Chief of Staff* – Stanford, CA

Sep 2024 – Present

- Managing logistics for 40-member organization and leading strategy planning for 12-person executive team; organizing 15+ speaker events per year featuring politicians and academics

Stanford Review, *Writer* – Stanford, CA

Oct 2024 – Present

- Publishing investigative and opinion pieces on fiscal policy, institutional design, and campus governance, including data analysis of \$5.17M in student organization funding across 327 clubs.

Charles R. Blyth Fund, *Analyst* – Stanford, CA

Dec 2024 – Present

- Developing investment theses for long term growth based on macroeconomic analysis; presenting recommendations to leadership team and participating in portfolio allocation discussions for \$300k AUM fund

SKILLS

Software: R, Stata, Python (NumPy, Pandas), SQL, Excel

Languages: Latin
